Chief, Engineering Division, OC

PLEASE FORWARD TO
ENGINEERING DIVISION

(RD)XG-578, T.O. 7

REF:

Memorandum to Chief, Engineering Division from Contracting Officer
dated 10 March 1958, subject as above.

1. The dies and molds itemized in the reference residual inventory were used in the fabrication of 3 prototypes of the EP-2 Electro-mechanical layer under the subject contract. Upon delivery of the prototypes, it was determined that further re-working would be required to produce an acceptable unit and the project was suspended.

2. Should the project be re-activated, however, the residual dies and molds would be of no use. It is therefore recommended that the items contained in the residual inventory be disposed of as scrap. Disposal may be over.
